

STAR Watch Explained

What does STAR stand for?

Strategic Technology and Resource Center.

What is the STAR Watch Program?

STAR Watch allows businesses, residents, schools, and neighborhoods to share their camera feeds with the STAR Center. It is completely voluntary.

What does the STAR Center do?

The STAR Center uses video camera feeds to improve police response time, provide accurate information to responding officers, and help solve crimes.

*“If you have a camera,
we want you. Join us.”*

MONTGOMERY POLICE DEPARTMENT

River Region
STAR Watch

RIVER REGION
STAR WATCH
PROGRAM

What We Do

The Montgomery Police Department has launched a new police-community technology initiative that is built around a real-time crime center. The River Region Strategic Technology and Resource Center — STAR Center — is a state-of-the-art MPD facility that uses video camera feeds from throughout the city to work smarter and more efficiently, and to increase safety.

Through the STAR Center, MPD is partnering with the Montgomery community in the STAR Watch program. STAR Watch is a voluntary program that allows businesses, residents, schools, neighborhoods and others to share their cameras with the STAR Center.

How You Can Join

There is no cost to join if you already have an online camera security system. Simply obtain MPD's registration form, fill it out, and send it in to MPD. The form is available on the department's website. It can be dropped off at police headquarters, 320 N. Ripley St., or emailed to:

starcenter@montgomeryal.gov

If you would like to be on the same security system that MPD uses, contact any of the Eagle Eye vendors listed on this flyer. Tell them you want to be added to MPD's First Responder List on the department's new Eagle Eye security system.

Frequently Asked Questions

Q. *How do I share my cameras with the Star Watch Program?*

A. Verify that your camera system is online and can be viewed via the internet. Complete a registration form. Provide the STAR Watch Program with login information. Set up viewing rights for the program.

Q. *How do I get my cameras online?*

A. Check with your camera and internet providers to ensure that your cameras can be linked to your existing internet connection.

Q. *Do I need to buy a new camera system?*

A. Not necessarily. If you already have a system, a representative from MPD can meet and discuss potential solutions.

Q. *Do I have to give the police access to my interior cameras?*

A. No. We encourage you to work with your camera provider to isolate the cameras you want to share.
